Boston, MA 📍

I'm a highly versatile designer specializing in **UX for high-scale technical platforms**. Proven ability to drive cross-functional alignment and roadmap execution for complex, 0-to-1 initiatives across consumer, enterprise, and developer platforms.

EXPERIENCE

Staff Product Designer, AI @ GitLab – Boston, MA (September 2026 - Present)

Leading end-to-end design for GitLab's AI/agentic product suite, from strategy and craft standards through execution, while mentoring designers across the org on AI-specific interaction patterns.

Staff Product Designer @ Snyk – Boston, MA (January 2026 - July 2026)

I led the design strategy for Snyk's Developer Experience team, focusing on how millions of developers interact with security within their native environments. My work centered on building both AI-Native and AI-Augmented tools that streamline collaboration between development and security teams, enabling large enterprises to scale innovation without compromising safety.

UX Designer @ Google – Cambridge, MA (2014 - 2025)

Firebase (2021–2025): I owned design for pre-release testing and observability tools used by over 3 million global developers. Within this scope, I transformed Firebase App Distribution into a full-fledged testing tool via the App Testing Agent, Firebase's first agentic launch.

Google Ads (2018–2021): Designed solutions for high-traffic, information-dense campaign management tools for enterprise travel clients. Architected a supplier coverage solution for connected hotels that recaptured 5% of matched impressions and unlocked significant revenue streams.

Google Ink (2015–2018): Led design & research as the sole UX specialist to integrate drawing/annotation functionality into high-profile consumer products like Google Keep & Google Classroom.

Google Charts (2014–2015): Defined Data Visualization specifications for the Material Design system, impacting millions of users across products like Google Sheets and Analytics, establishing strict accessibility and internationalization standards.

EARLIER EXPERIENCE

Co-founder & Lead Designer @ Vectra Creative (2011–2014)

Advertising Designer @ Allen Roche Group (2010–2011)

In-House Print Designer @ Central Steel Supply (2004–2010)
